## Experience

### Sr UI/UX Designer @ SecureDocs, Inc.

2018 - Present, Santa Barbara, California

My role with SecureDocs is to work with their talented engineering team to focus on product growth development and implementing SecureDoc's UI component design system.

### Sr UI Designer @ RightScale

2012 - 2018, Santa Barbara, California

Worked closely with UX designers, product managers and front-end engineers to accomplish design goals. My responsibilities include product design, prototyping and front-end web app development.

### Web Designer @ University of California, Merced

2010 - 2012, Merced, California

Part of the Communication's team for the Office of the Chancellor. I was responsible for UI design, brand development, and website theme development for the University's public web products.

### Web Designer @ The Fresno Bee

2010 - 2012, Fresno, California

Responsible for the design and front-end development of The Fresno Bee's editorial online products, including the homepage, section pages and other online news products.

## Education

### California State University, Fresno

BA, Art and Graphic Design 2003 - 2007

## Skillset

Product design, prototyping, design systems, icon design and CSS architecture.
