Summary

Offer 10+ years of SaaS industry experience as a product designer focused on user-centric designs that drive business success. Leverage front-end development background to bridge design and implementation, delivering visually appealing experiences grounded in modern frameworks and creating solutions that delight users and drive growth.

Experience

AUG 2018 - PRESENT

SecureDocs, An Onit Company, Goleta, CA - Senior Product Designer

- Led the design efforts for SecureDoc's revamped document browser interface, establishing a cohesive user interface framework and visual design language for future projects. This initiative coincided with a significant increase in annual document uploads, rising from 1.7 million in 2019 to 4.9 million in 2023, reflecting a remarkable growth of approximately 194%.
- Designed, validated, and launched SecureDoc's new e-signature interface, improving how customers send contracts and other business documents. This initiative led to creating a standalone product and brand, opening up a new market for the business.
- Elevated the UX craft at SecureDocs by mentoring junior designers, piloting new tools, presenting lessons and case studies, and overseeing design operational improvements.

AUG 2012 - AUG 2018

RightScale, Santa Barbara, CA - Senior User Interface Designer

- Created a comprehensive design system encompassing brand assets, color guidelines, an icon library, and UX pattern documentation. This system served as a valuable reference tool for all company members, including teams for 4 core applications.
- Worked closely with UX designers, product managers, and front-end engineers to accomplish design goals. Attended customer interviews for UX research and iterated designs based on those interviews.

DEC 2010 - AUG 2012

University of California, Merced, CA - Web Designer

- Responsible for UI design, brand development, and website theme development for public web products at the University.
- Collaborated with various University departments as a web design consultant to support the launch of their web projects.
- Collaborated with the university's IT department on web-related projects, including developing a new content management system.

APR 2007 - DEC 2010

The Fresno Bee, Fresno, CA - Web Designer

- Designed the homepage, section pages, and online news products. Collaborated with the editorial team to create engaging web content and news stories.
- Collaborated with staff photographers and artists to create feature galleries, driving site traffic.

Education

2003 - 2007

California State University, Fresno, CA - BA, Art and Graphic Design
