Experience

Sr UI/UX Designer @ SecureDocs, Inc.

2018 - Present, Santa Barbara, California

Responsible for designing and developing the visual style across SecureDoc's evolving product line. While also working closely with product managers, and engineers, to support projects throughout their entire lifecycle.

Sr UI Designer @ RightScale

2012 - 2018, Santa Barbara, California

Worked closely with UX designers, product managers and front-end engineers to accomplish design goals. My responsibilities include product design, prototyping and front-end web app development.

Web Designer @ University of California, Merced

2010 - 2012, Merced, California

Part of the Communication's team for the Office of the Chancellor. I was responsible for UI design, brand development, and website theme development for the University's public web products.

Web Designer @ The Fresno Bee

2010 - 2012, Fresno, California

Responsible for the design and front-end development of The Fresno Bee's editorial online products, including the homepage, section pages and other online news products.

Education

California State University, Fresno

BA, Art and Graphic Design 2003 - 2007

Skillset

Specialties

Visual design, prototyping, illustration, icon design, design systems, and CSS architecture.

Proficiencies

Figma, Sketch, Adobe Creative Suite, Basic front-end coding (HTML & CSS), and React.
